

TIPS IN BUILDING A ROBUST WAREHOUSE / LOGISTICS WIFI

- CONNECTED WAREHOUSE WIFI
- AUTOMATED GUIDED VEHICLE AND ROBOTICS WIFI
- WIDE WIFI COVERAGE FOR MOBILE DEVICES
- WAREHOUSE WIRELESS CCTV SURVEILLANCE

Robust and strong WiFi coverage is paramount for connected warehouses that require uninterrupted Internet connectivity. We offer wide coverage WiFi networks to meet the growing demand for connected warehouse applications.

WHY A STRONG WIFI COVERAGE NETWORK IS CRUCIAL?

HARD FACTS

Connected/Automated warehouse is increasingly important to bring in competitive advantages to warehouse and logistics businesses. Smart forklifts, real-time mobile handheld scanners and Internet of Things devices require a stable, strong and wide WIFI coverage infrastructure to provide solid connection at any given time.

- **TABLETS AND HANDHELD DEVICES** – improves accuracy and efficiency. It helps in reducing paper works.
- **AUTOMATED GUIDED VEHICLE** – reduces the need of dependency on manpower.
- **INDUSTRIAL IOT** – equipping connected warehouses with advanced sensors that collect and analyse data to improve overall productivity.
- **ROBOTICS** – smart machines and robots increase accuracy and minimize production errors.

- **WIRELESS SURVEILLANCE** – warehouse security with smart CCTV cameras connected to broadband wireless network.

Aglotel integrated Wi-Fi and wireless network offers high-capacity broadband infrastructure for large scale warehouses. We have more than 20 years' of experience in providing the best Wi-Fi solutions for factories. Call us for more info.
