

Delivering Fiber-speed Wireless Solutions for Wireless Internet Service Providers

CREATING A ROBUST GIGABIT NETWORK FOR WISPS: BEST PRACTICES

WE PROVIDE FIBER-FAST CAPACITY WITH SCALABLE, ROBUST POINT-TO-POINT AND POINT-TO-MULTIPOINT ARCHITECTURE, OFFERING FAST, AFFORDABLE CONNECTIVITY SOLUTIONS.

Customers are constantly demanding high capacity connectivity at an affordable rate. Service providers are faced with the challenge of growing connectivity gap. We offer long range Gigabit wireless backhaul networks to meet this growing demand.

CAN'T AFFORD FIBER? A BETTER OPTION WITH WIRELESS

HARD FACTS

As a one-stop wireless Internet service provider, we offer diverse broadband solutions for corporations, enterprises, and government sectors, requiring a scalable, high-capacity wireless infrastructure to support growing demands in dynamic digital transformation environments.

- **GIGABIT CAPACITY** – Wireless backhaul network that delivers more than 1Gbps throughput capacity to handle data-intensive business operations.
- **LONG DISTANCE POINT TO POINT** – Capable of operating seamlessly at distances beyond 50km, providing stable, long-range connections even in remote, hard-to-reach areas with minimal signal quality degradation.
- **POINT TO MULTIPOINT** – Cost-saving design using Point to Multipoint architecture for rapid deployment and network scalability.
- **SUPPORT MULTI-APPLICATIONS** – Transparent bridging wireless network architecture that supports multi-layer applications such as surveillance, VoIP, and automation.
- **CLOUD BASED MONITORING** – Operation and maintenance of the network can be performed anywhere and anytime.

Aglotel provides high-capacity gigabit wireless broadband infrastructure, tailored specifically for the telecommunications and service provider market. With over 30 years of expertise, we specialize in delivering top-quality wireless infrastructure design and seamless implementation. Our solutions are engineered to ensure reliable, high-performance connectivity.
