Aglotel

Integrated Wireless and WiFi Solutions for Manufacturing Industry

HOW TO CREATE A ROBUST INDUSTRIAL WI-FI SOLUTIONS

- **FACTORY AND WAREHOUSE WIFI**
- **AUTOMATED GUIDED VEHICLE AND ROBOTICS WIFI**
- **MANUFACTURING PRIVATE WIRELESS NETWORK**
- **INTELLIGENT CCTV SURVEILLANCE**

Robust and wide WiFi signal penetration is paramount for factories and warehouses that require uninterrupted Internet connectivity. We offer integrated Wireless and WiFi networks to meet the growing demand for IR4.0 wireless application.

WHY A RELIABLE INTEGRATED WIFI NETWORK IS CRUCIAL?

HARD FACTS

Industrial Revolution 4.0 has created new competitive advantages in the manufacturing sector with the introduction of robotics, Industrial Internet of Things (IIOT), automation, mobile devices, cloud-based warehouse management and etc. To gain advantage of this, a robust wireless infrastructure network is paramount.

- **TABLETS AND MOBILE DEVICES** – improves accuracy and efficiency. It helps in reducing paper works.
- **AUTOMATED GUIDED VEHICLE** – reduces the need of dependency on manpower.
- **INDUSTRIAL IOT** – equipping smart factories with advanced sensors that collect and analyse data to improve overall productivity.
- **ROBOTICS** – smart machines and robots increase accuracy and minimize production errors.

- ·**WIRELESS SURVEILLANCE** – enhances factory and warehouse security with smart CCTV cameras connected to broadband wireless network.

Aglotel integrated Wi-Fi and wireless network offers high-capacity broadband infrastructure for manufacturing sector. We have more than 20 years' of experience in providing the best Wi-Fi solution for factories. Call us for more info.
