

Fiber-speed Wireless Backhaul Solutions for Corporate and Service Providers

HOW TO BUILD HIGH CAPACITY CORPORATE WIRELESS NETWORKS

- FIBER-FAST CONNECTIVITY
- SCALABLE AND ROBUST
- 50KM AND BEYOND POINT TO POINT DISTANCE
- FAST AND AFFORDABLE SOLUTIONS

Internet bandwidth demand in corporate networks keeps increasing by the day. We offer long range and high capacity wireless backhaul solutions to meet this growing capacity demand.

CAN'T AFFORD FIBER NETWORKS? THERE IS A BETTER OPTION WITH WIRELESS!

HARD FACTS

Not every land can be fiberized to build your corporate network. Fiber technology comes with high cost and takes time to build. Today, wireless technology can deliver fiber-speed bandwidth at a fraction of its cost.

- **GIGABIT CAPACITY** – Wireless backhaul network that delivers more than 1Gbps throughput capacity.
- **LONG DISTANCE POINT TO POINT** – Capable in operating at a distance 50Km and beyond.
- **LICENSED FREE SPECTRUM** – Utilizing the unlicensed sub-6 GHz and 24GHz band eliminate the need to obtain operating license from regulator.
- **SUPPORT MULTI-APPLICATIONS** – Transparent bridging wireless network architecture that supports multi-layer applications.

- **CLOUD BASED MONITORING** – Operation and maintenance of the network can be performed anywhere and anytime.

Aglotel offers high-capacity gigabit wireless infrastructure designed for corporate and service providers. We have more than 20 years' of experience in providing the best wireless infrastructure design and implementation. Call us for more info.
