

Enterprise WiFi Solutions for Corporate or Enterprise Offices

A background image showing three office workers in a collaborative setting. A woman with curly hair and glasses is smiling and looking at a laptop screen. A man is partially visible on the left, and another woman is on the right, also looking at the screen. The scene is brightly lit with indoor plants in the background.

HOW TO BUILD A STABLE OFFICE WI-FI NETWORK

- WIDE WIFI SIGNAL COVERAGE
- SUPPORT LARGE USER BASE
- IMPROVES MOBILITY WITHIN OFFICE
- CLOUD-BASED MONITORING AND MAINTENANCE

In today's world, business is increasingly driven by computer technology and the internet. Enterprises require a stable uninterrupted WiFi Internet connectivity anywhere and anytime. We offer wide coverage WiFi networks to meet this growing demand for connectivity in office.

WHY STRONG WIFI COVERAGE NETWORK IS CRUCIAL?

HARD FACTS

Whether you're operating a small business or a corporate facility with hundreds of employees, modern businesses now mostly wholly reliant on a stable and fast WiFi connection. Our business WiFi solutions are secured and robust giving you uninterrupted Internet experience.

- **GUARANTEED WIFI SIGNAL COVERAGE** - our solution provides a WiFi network that guarantees the best coverage.
- **WIFI SITE SURVEY AND DESIGN** - our WiFi engineers will perform professional wireless survey and design a WiFi coverage according to your company's requirements.
- **COMPREHENSIVE MAINTENANCE** - dedicated engineers to provide comprehensive after sales support to prevent any WiFi outage.

- **SCALABLE FOR FUTURE** - we ensure the WiFi network is designed not just to fulfill your current Internet requirements but to cater for future expansion to protect your investment.

Aglotel integrated Wi-Fi and wireless network offers high-capacity WiFi solutions for corporate and enterprises. We have more than 20 years' of experience in providing the best Wi-Fi solution. Call us for more info.
