Complete Range of WiFi Solutions for the Hospitality Industry

5 WAYS HOTEL WIFI CAN IMPROVE GUEST SATISFACTION

- **WIDE WIFI SIGNAL COVERAGE**
- **GUEST WIFI BOOSTING**
- **MULTI-GADGETS ACCESS**
- **CLOUD-BASED MONITORING AND MAINTENANCE**
- **GUEST RETENTION THROUGH WIFI**

In today's environment, guest satisfaction and retention are important to ensure hotel stays above its competition. Guests require a stable, fast and uninterrupted WiFi Internet connectivity anywhere and anytime. We offer wide coverage WiFi networks to meet this growing demand for the hospitality industry.

WHY STRONG WIFI COVERAGE IN HOTEL IS CRUCIAL?

HARD FACTS

Anyone can buy super soft sheets, provide room service 24/7 or put extra cookies on the pillow, yet the real game changer is a stable WiFi. The importance of WiFi ranked top amongst the most important amenities for hotels.

- **WIFI SIGNAL COVERAGE** – Guest demand strong and stable WiFi signal with large coverage not just lobby area but rooms, restaurants, swimming pool, gym and etc.
- **WIFI SPEED** – Nothing is more frustrating than the constant need to refresh your browser and to keep waiting for a page to be loaded. Guest require a fast WiFi.
- **MULTI DEVICES CONNECTION** – Today guest carries multiple devices and gadgets with them. Hotel WiFi needs to enable multiple devices connection for guest.
- **EASY LOGIN ACCESS** – Remembering WiFi user names and passwords are a real hassle. Hotel WiFi access need to be user friendly.

- **WIFI SHOPPING ADS** – Tourist guest prefer information to be available at their fingertips. Hotel WiFi directory will come in handy for guest at all times.
