## REDIFINING HOTEL GUEST EXPERIENCE WITH GUESTCONTROL™ INNOVA™ INTERACTIVE SMART MIRROR

TURN THE ORDINARY INTO EXTRAORDINARY. DESIGN OF THE FUTURE, AVAILABLE TODAY

Hotels are using smart mirrors to integrate all aspects of the guest experience into one centralized system. These devices can be touch or voice activated. The smart mirrors can also switch between functioning as a television, or having a user interface to interact with. Depending on the level of integration, guests can do anything from ordering room service to asking questions about tourist activities. It can also control the ambient and asking for extra amenities with room control and robotic integration.

## INNOVA™ INTERACTIVE SMART MIRROR

INNOVA™ INTERACTIVE SMART MIRROR is revolutionizing the hotel experience by offering guests personalized communication, ambient control, information, and entertainment.

By integrating INNOVA™ INTERACTIVE SMART MIRROR with the Smart Room Control system, hotel PMS, guestroom service optimization and infotainment system, guests will be able to contact the guest service center for dinner reservations, request the concierge to collect their luggage, set a lighting scene for their room, lock the door and open the drapes. In addition, the INNOVA™ INTERACTIVE SMART MIRROR itself will provide hotel information, play the guest's favorite music, broadcast their favorite TV show, stream real-time news, sports and stocks, and even change colors to adjust the room ambiance.

INNOVA™ INTERACTIVE SMART MIRROR can be customized to offer the features and content the hotel need and branded to showcase the hotel. Its cloud-based platform allows for continual software updates and optional upgrades. Innova's flexibility keeps the hotel relevant and ahead of guest expectations, delivering an experience that delights not only guests but also the hotel management.
