

Fiber-speed Wireless Backhaul Solutions for Corporate and Service Providers

HOW TO BUILD HIGH CAPACITY CORPORATE WIRELESS NETWORKS

WE OFFER FIBER-FAST, SCALABLE CONNECTIVITY WITH ROBUST POINT-TO-POINT SOLUTIONS UP TO 50KM, PROVIDING FAST, AFFORDABLE LONG-DISTANCE INTERNET.

Internet bandwidth demand in corporate networks keeps increasing by the day. We offer long range and high capacity wireless backhaul solutions to meet this growing capacity demand.

CAN'T AFFORD FIBER? A BETTER OPTION WITH WIRELESS

HARD FACTS

Deploying fiber is both costly and time-consuming. However, wireless technology now provides fiber-speed bandwidth at a fraction of the cost, making it a more efficient and scalable solution for building corporate networks. This offers businesses a faster, more affordable alternative to traditional fiber infrastructure.

- **GIGABIT CAPACITY** – A high-performance wireless backhaul network that delivers more than 1Gbps throughput capacity, ensuring fast and reliable data transmission for demanding applications.
- **LONG DISTANCE POINT TO POINT** – Seamlessly operates over distances of 50km and beyond, ensuring reliable, low-latency connections, even in remote areas.
- **LICENSE-FREE SPECTRUM** – Utilizing the unlicensed sub-6 GHz and 24GHz bands eliminates the need to obtain an operating license from a regulator.
- **SUPPORT MULTI-APPLICATIONS** – Transparent bridging wireless network architecture that supports multi-layer applications.
- **CLOUD BASED MONITORING** – Operation and maintenance of the network can be performed anywhere and anytime.

Aglotel offers high-capacity gigabit wireless infrastructure, specifically designed for corporate businesses and service providers. With over 30 years of experience, we specialize in delivering top-tier wireless infrastructure design and seamless implementation to meet your connectivity needs.
