

Delivering Fiber-speed Wireless Solutions for Wireless Internet Service Providers

HOW TO BUILD GIGABIT NETWORK FOR WISPS

- FIBER-FAST CAPACITY
- SCALABLE AND ROBUST
- POINT TO POINT AND POINT TO MULTIPOINT ARCHITECTURE
- FAST AND AFFORDABLE SOLUTIONS

Customers are constantly demanding high capacity connectivity at an affordable rate. Service providers are faced with this challenge of growing connectivity gap. We offer long range Gigabit wireless backhaul networks to meet this growing demand.

CAN'T AFFORD FIBER NETWORKS? THERE IS A BETTER OPTION WITH WIRELESS!

HARD FACTS

You are the one-stop wireless Internet service provider, offering a wide-variety of broadband Internet services to corporate, enterprises and government. You need a scalable and high-capacity wireless infrastructure.

- **GIGABIT CAPACITY** – Wireless backhaul network that delivers more than 1Gbps throughput capacity.
- **LONG DISTANCE POINT TO POINT** – Capable in operating at a distance beyond 50Km.
- **POINT TO MULTIPOINT** – Cost saving design using Point to Multipoint architecture.
- **SUPPORT MULTI-APPLICATIONS** – Transparent bridging wireless network architecture that supports multi-layer applications.

- **CLOUD BASED MONITORING** – Operation and maintenance of the network can be performed anywhere and anytime.

Aglotel offers high-capacity gigabit wireless broadband infrastructure designed for telco and service providers' market. We have more than 20 years' of experience in providing the best wireless infrastructure design and implementation. Call us for more info.
